

Hong Wei Chin (Johnson)

Full-Stack Developer | DevRel | Community Builder

KL, Malaysia | (+60) 11 208 94395 | johnsonchin1009@gmail.com | 0xjohnson.xyz

EDUCATION

Asia Pacific University <i>Bachelor of Science (Honours) in Software Engineering</i>	Kuala Lumpur Nov 2023 - Oct 2025
--	-------------------------------------

WORK EXPERIENCE

Virtuals Protocol <i>Full-Stack Developer (Mid-Level)</i>	Kuala Lumpur Oct 2025 - Present
---	------------------------------------

Software Engineering

- Led development and architect infrastructure for edge computing with companion app and server stack
- Planned and deployed AWS infrastructure (Step Functions, ECS, Lambda, EventBridge) for an internal scoring pipeline, processing 30,000+ records daily
- Implemented PageRank-based ranking logic to rank 30,000+ crypto wallets within core product systems

Quality Assurance (QA)

- Built end-to-end automated test infrastructure for Node.js and Python SDKs from scratch — 500+ unit and integration tests with 85%+ coverage
- Performed manual QA validation on 20+ on-chain and platform features prior to release
- Identified and refactored 10+ gaps in SDK functionality, reducing number of edge cases and points of failure

Developer Relations

- Onboarded 30+ agent teams into Agentic Commerce Protocol (ACP) by providing technical guidance and integration assistance
- Evaluated 50+ agent teams through manual and automated testing processes to maintain product quality standards

Robotics

- Built a fully sovereign, zero-cloud AI stack for Unitree G1 humanoid robot — integrating STT, TTS, local LLM, and body movement control via UnitreeSDK
- Trained custom wake word using openWakeWord library achieving 80% accuracy for internal R&D product that runs on edge devices using onnxruntime

COMMUNITY BUILDING

GDG Cloud KL

<i>Organizer</i>	Aug 2025 – Present
• Organized industry level conferences such as DevFest KL, Cloud Day KL etc. • Providing support and assistance to GCP users via content curation and presentation • Managed social media presence and led outreach efforts to grow community engagement	

OpenClaw KL

<i>Organizer & Speaker</i>	Mar 2026 - Present
• Spoke on CLI, Skills, MCP to 200 attendees at OpenClaw KL Meetup #2 • Demonstrated how to build skills for OpenClaw agent and interesting use cases	

OPEN SOURCE CONTRIBUTIONS

- **Virtuals Protocol SDK** — Built test infrastructure; 500+ tests, 85%+ coverage
- **Typst** — WIP
- **NeoVim** — WIP

MongoDB User Group KL

<i>Volunteer</i>	Jun 2024 – Present
• Spoke on MongoDB Security Basics at MUG KL Meetup #19 to 40 attendees • Co-Hosted MongoDB Meetups with MongoDB Champions	

Independent

<i>Invited Hackathon Judge</i>	Sept 2025 - Present
• CodeNecton 2025 @ MMU • Isek.AI ACG Buildathon 2025 @ Taylor's University	

HACKATHONS

- **3rd Place**, Best Build on Scroll @ EthKL 2024
- **2nd Place**, Protocol Labs @ ETHBangkok 2024
- **3rd Place**, Best Build on Scroll & The Graph @ ETHUprising 2025
